

Sprayology is a unique and innovative line of all natural homeopathic and vitamin oral sprays. This page and the next 3 pages are the line sheets for the Sprayology retail line. The majority of our products are FDA regulated and all are beautiful. The first 3 pages (relieves, rejuvenates and restores) contain information about our FDA regulated formulas and the fourth page, rebuilds, contains information about our vitamin formulations.

Better Health is Beautiful!

◦ rebuilds

[VITAMINS]

Sprayology reinvents the vitamin as it reinvigorates a generation of time deprived professionals. These pioneering nutritional supplements are sprayed into the mouth and under the tongue, where they are absorbed directly into the bloodstream. Unlike tablets, liquids and caplets, oral sprays by-pass the digestive system, which can degrade the restorative properties of nutrients, so more nourishment makes it into the body.

Daily Multi

DAILY VITAMIN SUPPORT \$24.00

A landmark formula comprised of essential vitamins which promote healthy growth and activity, while supporting the body's natural ability to heal itself. The daily dose your body needs.

C + Z

ENHANCES THE IMMUNE SYSTEM \$24.00

A healthy boost to the immune system, Vitamin C helps the body fight and resist infection as it promotes the growth and maintenance of bones, teeth, gums, ligaments and blood vessels. Zinc supports the body's enzyme systems - particularly those involved in growth, skin health and wound healing, the development of reproductive organs, protein metabolism and energy production.

B-12 + Folic Acid

DAILY NUTRIENTS FOR MEN + WOMEN \$24.00

Complementary agents that together work to build the genetic material of cells, produce blood cells in bone marrow, and maintain a healthy nervous system. The supplement is particularly valuable for women of child-bearing age, individuals who eat little-or-no animal protein, and those at risk of heart disease.
